A Family Haggadah for all the kids...

"the clever use of color-coded text lets readers know when it is their cue to join in, and join in they do.

"Levin's transliteration and key make the Hebrew words accessible to all.

Terri Ginsburg

Engaging, playful, and perfect for young families

"The language of the Haggadah is inviting for non-Jews and Jews alike; creative transliterations of Hebrew prayers and songs mean that anyone can participate, and folks who are less than confident in their Hebrew language skills will be empowered to participate.

Rabbi Ora Nitkin-Kaner

Like the best music

"I love its spirit, certainly its comprehensiveness, but mostly how it engages children and parents in the joyful repetition of sounds and actions.

Lee Gruzen

"Levin's illustrations are charming

and work beautifully with the color-coded text allowing beginning access to the seder's basic prayers.

A Haggadah for everyone

"a great book to explain the rituals, describe the Passover symbols and help with the Hebrew.

Stephanie Neville

The story stays true to the Passover seder

but with a gentleness and fun twist to all its parts. I bought two copies but am ordering more so there are enough to go around for all the children - big and small - at the Passover table!

Betty Wolf

A beautiful and delightful take on Passover traditions

"It will charm the youngest to the oldest and delight Jewish and even non-Jewish readers.

S. Strausberg

Great story, great artwork, great Haggadah for young kids!

"The book also presents an...interesting...but quite effective new transliteration key.

Ben Passey

"The color-coded sentences make it easy to follow

do you read alone, in unison or do you read the Hebrew translation of the blessings and songs?

Merrill Silver

"My new Passover go-to...

I loved how this book covers all the most important facets of the Seder in a way that will charm children and adults alike.
